

5/16" Standard Mud Flaps

Globetech's Standard Mud Flaps

Globetech uses the finest material available to mold its standard mud flaps. These are the most popular mudflaps for logo use.

This material also meets all MIL-SPEC for Military Contractors.

Our 5/16" Standard splash guards are slightly heavier than our Chevron flaps. The majority of our customers prefer the Standard flap for their Custom logos.

XTREME MUD FLAP

- Our Xtreme Mud Flap is molded from high tensile strength rubber. Using conveyor belt technology, a wire of nylon sheet is molded into the mud flap for greater durability.
- Great for dump trucks and off-road use
- Highest tear strength of any mud flap
- Stiffer flap prevents waving
- Available with silk-screen or raised molded logo

Correlation of Constrained Path Tear versus Off Road Tire Performance

The chart below illustrates the degree of correlation between CP tear strength at 100°C and the cutting-chipping rating of a series of compounds in an off-road tire performance test.
