G-Force Aerodynamic Flap

G-Force "The Ultimate Mud Flap"

Save Fuel

Studies confirm a pair of aerodynamic mudflaps increase fuel efficiency (MPG). Patented air foil design is the most efficient on the market.

Reduce Spray

Heavy duty rigid airfoil design keeps mudflaps in "IDEAL POSITION" to reduce spray. Water is channelled downward instead of striking a flat surface and creating a mist.

Anti-Sail

Our airfoil design keeps mudflaps in a vertical position with little wind resistance. Mudflap stays in position to deflect and block debris.

Optional LED

Optional red or blue LED lights for more visibility. LED can be plugged in and used as stop, tail, turn, or marker light.

Cold Temp

Globetech produces over 1 million mudflaps in a calendar year. Low density PE is used for low temperatures of -42 F. Resists cracking or tearing with 2170 PSI Tensile strength.

IDEAL AIRFLOW POSITION

Viscous Flow Around a Stationary Wing Section

Part Number	Dimensions	Weight
GT-2424GFB	24" x 24"	4.5 lbs each
GT-2430GFB	24" x 30"	6.5 lbs each

Symmetric wing shaped airfoil design for each rib provides lowest drag coefficient optimizing air flow and improving fuel efficiency. Aerodynamic design allows air to pass through reducing movement of mud flaps at higher speeds maintaining their protective function. Vertical and Angled ribs help to dissipate moisture and debris in a safe manner at all weather conditions and speeds. The G-Force is weighted at an optimal 4.5 lbs and will not flex, bend or rotate at higher speeds.

**Patent Pending - Designed by a Wright-Patterson Air Force Base Aeronautical Engineer*

Standard Rubber Mud Flaps

5/16" Domestic Standard Rubber Flaps

Globetech uses the finest material available to mold its standard mud flaps. These are the most popular mudflaps for logo use.

This material also meets all MIL-SPEC for Military Contractors.

Our 5/16" Standard splash guards are slightly heavier than our Chevron flaps. The majority of our customers prefer the Standard flap for their Custom logos.

5/16" Standard Rubber

<u>Part Number</u>	<u>Dimensions</u>	<u>Weight</u>
GT-1217S	12" x 17"	3.5 lbs each
GT-1924S	19" x 24"	5.5 lbs each

Xtreme Rubber Mud Flaps

3/8" Domestic Xtreme Rubber Mud Flaps

Our Xtreme Mud Flap is molded from high tensile strength rubber. Using conveyor belt technology, a wire of nylon sheet is molded into the mud flap for greater durability.

- Great for dump trucks and off-road use
- Highest tear strength of any mud flap
- Stiffer flap prevents waving
- Available with silk-screen logo

Tireplast Mud Flaps

Domestic Tireplast Blend Mud Flaps

Tireplast Profile

Tireplast is a combination of recycled rubber (from tires) and plastic. The material is environmentally friendly and allows for custom size specifications. A great replacement for most natural and synthetic rubber, tireplast has low temperature impact toughness, tensile strength, flexibility, and sound deadening capabilities. It is also resistant to many chemicals including alcohol, anti-freeze, diesel fuel, gasoline, grease, hydraulic oil, kerosene, motor oil, and salt water.

- Thermo plastic rubber blend
- Anti-curling attributes of a rubber flap
- Stiff anti-sail features of a poly flap
- Ribbed back for anti spray
- Also available in angle cut or rounded corners

Custom Logo Mud Flaps

Ordering Custom Logo Mud Flaps

How to Order

1. Choose a Mud Flap: Poly, Rubber, Tireplast or Rubber Raised Molded

2. Choose a Thickness of Flap

3. Choose a Flap Size

4. Get Us Your Logo:

- If you have an existing logo, email a vector file or original artwork to logos@gtmfginc.com
- If you **DO NOT** have a logo, we can design one for you.
- How many colors you want your logo to be?
- Once you have decided on what you want on your flap we will create a proof for you.

* You may also send us a sample flap with your logo and we will waive the setup fee

5. What we will need before we can begin production:

- Signed proof returned via fax or email
- Purchase order sent via fax or email

Available paint (rubber) and foil (poly & tireplast) colors for imprint.
